

conference

Join the conversation!

The ADDCOM Voice-Link conference phone connects directly to your telephone line, analogue or digital* PBX extension. The Voice-Link is designed for small to medium rooms and can be easily upgraded to suite large conference rooms by purchasing two extendable microphones. This versatility ensures your investment is protected as your business grows.

The Voice-Link's stylish design complements any conference room and is extremely easy to use. Through the use of full duplex high fidelity speakers, automatic gain control and intelligent microphones, the Voice-Link quickly adjusts to maximise performance in its environment.
